WORK EXPERIENCE

React Js Developer

Feb 2024 - Present

Subhaprada holding pvt ltd | Visakhapatnam , Ap

- Developed a real-world application from scratch using **ReactJS** and **TypeScript**, ensuring high performance and responsiveness across various devices.
- Created reusable and modular components to enhance code reusability and maintainability, adhering to best practices in component design.
- Translated Figma designs into high-quality, responsive user interfaces, ensuring pixel-perfect execution and a seamless user experience.
- Integrated **Razorpay** payment gateway for secure and efficient transaction processing, enhancing the application's functionality and user engagement.
- Utilized **Supabase** as a backend solution, implementing real-time data management and authentication features to streamline the development process
- Employed **Material-UI**, **Bootstrap 5** and **Tailwind** CSS for responsive design, ensuring a modern and visually appealing interface that meets user needs.
- Managed version control using **Git** and **GitHub**, effectively resolving merge conflicts and facilitating smooth collaboration among team members.
- Implemented state management using **Redux** Tool kit for efficient data flow and improved application performance,
- Implemented **WebSocket** and **Server-Sent Events** (SSE) for real-time communication in applications, enabling instant updates and notifications to enhance user experience and engagement.
- Containerized applications using **Docker**, streamlining deployment processes and ensuring consistent environments across development and production.

UI Developer

Nov 2022 - Dec 2023

Arcis AI pvt ltd | Visakhapatnam, India

- Gained hands-on experience in ReactJS concepts, enhancing my understanding of component-based architecture and state management.
- Developed reusable components using **ReactJS**, **HTML**, **CSS**, **MUI** and **LESS**, promoting code efficiency and maintainability across projects.
- Collaborated closely with UX designers to create user-centered designs, translating wireframes and mockups into functional user interfaces.
- Performed unit testing on implemented components to ensure functionality and reliability.
- Developed interactive charts using **Recharts** to visualize data effectively, enhancing user engagement and data comprehension.

Front-End Developer (Internship)

Jun 2022 – Nov 2022

ABN Junction | Chennai, India

- Participated in a remote internship using React.js, JavaScript, and React Router to build responsive web pages with HTML and CSS, integrating APIs for improved functionality.

PROJECTS

E-commerce Platform (Inspired by Amazon)

[View in GitHub](#)

- Developed a responsive e-commerce platform inspired by Amazon using the MERN stack (MongoDB, Express.js, ReactJS, Node.js) and TypeScript, featuring user authentication, product management, and state management using Redux Tool kit.

Travel Booking Web Application with Owner Notification System

[View in GitHub](#)

- Developed a travel booking web application using ReactJS and CSS, featuring a user-friendly interface for searching and booking travel options, along with integrated email notifications for the owner to track user interest and inquiries.

EDUCATION

Bachelor of Technology (B. Tech.) – 8.3 CGPA

July 2019 – May 2022

Andhra University, AP (India)

Diploma – 7.1 CGPA

Mar 2015 – April 2019

Govt Polytechnic, AP (India)

High School– 8.5 CGPA

Mar 2014 – April 2015

Siva Sai High School, AP (India)

ACHIEVEMENTS

Nxt-Wave CCBP – MERN–Stack Course

Web Developer BootCamp – Udemy

SKILLS

HTML | CSS | JavaScript | Redux | Bootstrap | Material-UI | Tailwind CSS | TypeScript | NodeJS | Wireframing | UI & UX Design | Redux Toolkit | MongoDB Atlas | Express.js

TOOLS

React.js | Recharts | SQLite | Git | GitHub | npm | Less | ChatGPT | Figma | Visual Studio Code (VSCode) | WebStorm | Typing (28 WPM)
